### Polly® Solid Plastic Color Chart

Our standard plastic partition products are made from High-density polyethylene (HDPE), and will never rust, dent or break. Metpar has proven itself in the toughest environments including schools, stadiums, and any high traffic public washroom facility. But it doesn't stop there - it works beautiful in high-end installations such as country clubs and office buildings. Available with matching or complimentary plastic shoes and brackets (see back for match suggestions). Color may vary due to printing process. Contact Metpar for actual sample material.
